## Education

HSC

**Jana Gana Mana clg**

2020-2021

Telcoswadi, Dombivli(W)

95.8%

Bachelor Of Engineering

**Terna College of Engineering**

2021-2025

Opp. Nerul station,

Nerul(W)

## Skills

- Web Development - HTML , CSS , JS
- JAVA                      -Bootstrap
- Python                    -ReactJS
- SQL

## Hobbies

- Reading                - Sketching
- Singing                - Crocheting

## Career Objective

A hardworking and immensely motivated third year student from artificial intelligence and data science field. Seeking an opportunity to leverage my skills in developing innovative AI solutions and manage complex datasets to contribute to a dynamic workspace.

## Projects

### Library Management System

*Abhinav Vidyalay (2019)*

A BlueJ script project which managed data of the library members on a daily basis as per the books issued and the entries done with their respective IDs.

### Student Attendance Management System

*Terna Engineering College (2022)*

A Python made 2-side attendance management system for the the faculty to track down the attendance of their students by entering the attendance daily and finally getting a filtered data of students who have less and for students to see their attendance.

### Object Detection for Blinds

*Terna Engineering College (2023 - Now)*

A Python made object detection system with the help of TensorFlow which would measure the distance from the object and beep when the threshold value is crossed thus helping the blind people. Now working on the hardware implementation as a future scope for the project.

## Expertise

- 1.Communication Skills
- 2.Active Listening
- 3.Efficient Leadership
- 4.Conflict Resolution
- 5.Time Management
- 6.Teamwork and Collaboration

## Languages

- Marathi
- Hindi
- English
- Gujarati
